

October 27, 1971

Mr. Harvey D. Carter, Jr.  
Williams, Witten, Carter & Dollard  
Attorneys  
115 Elm Street  
Bennington, Vermont 05201

Dear Mr. Carter,

Thank you for your letter of October 21. In my opinion the comment in my earlier affidavit has been ~~mit~~<sup>mit</sup>ted by the regulatory actions announced by the AEC since that time. I would see little merit in re-entering the same material.

I am enclosing a published article which expresses my present views. As this is already on the record you may, of course, make any fair use thereof that you see fit.

My remarks obviously do not cover the contingency of a catastrophic release of radioactivity in excess of the AEC's own standards. However, I do not believe I can make a competent judgment on the sufficiency of current precautions.

I think you will find other papers in the September 1971 issue of the Bulletin of the Atomic Scientists of great interest and relevance to the present case.

Sincerely yours,

Joshua Lederberg  
Professor of Genetics
